Carol Lee. ID-SC. From the Far West comes this giant flower, one of the largest and most attractive of this year's originations. Without coddling it produced 10" blooms of the palest pink. Centers are high, and the tips of the petals roll and twist giving the flower a most graceful appearance. (Far West). Plants \$5.00.

Red Tornado. Inc. C. This is one of the very best of its type, and has been a consistent prize winner since its first year. The petals curl and twist to form a chrysanthemum-shaped flower 8" to 10" across, with proportionate depth. Color dark red with purplish reverse, and highly recommended as an exhibition flower. (Eccleston-Rocky River.) Plants \$5.00.

Windlassie. I. D. An honest-to-goodness white 7" to 9" across with great depth. As a bloom develops the petals roll back towards the stem forming a ball-shaped flower of great beauty.
